"

While the XXXII's ribbed heel was ultimately inspired by the II, the real push to add to the character of the shoe came from nike air jordan 2 retro low gym red himself. The six lines on the piece also serve as a subtle nod to Jordan's six NBA championships.

While the sports car influence can be found along the stitch pattern of the Flyknit upper, which drafts off of the steering wheel stitch found in Ferraris, it was still the original nike air jordan 2 retro black infrared that helped inform several of the XXXII's most distinct design cues.

When the nike air jordan 2 retro decon first launched in the late 1980s, basketball shoes across the industry were made of foam midsoles and leather panels. With its made-in-Italy ethos at the forefront, the II ushered in luxury materials, crafted in iguana and reptile skins along the shoe's key collar panel. For the XXXII, the brand looked to inject that same luxury spirit, dressing the shoe's collar in rich suedes and a similar iguana textile.

nike air jordan 2 retro alternate '87 We've always explored new materials and technology to create the best game shoe. That was evident when we went to Italy to make the II, and it still rings true today, the Jordan Brand said in a statement. ""On the XXXII, we challenged our designers to push the limits while staying true to the brand's DNA.""
